# CLARESHOLM REVIEW

VOLUME 9 CLARESHOLM ALTA., APRIL 3, 1913. NO. 6

## FIRST GUN FIRED FOR LIBERALS

### MEETING MUCH ENTHUSIASM FOR MOFFATT

The meeting at the Clareholm View School on Tuesday evening made up in enthusiasm what was lacking in numbers. Through a blunder the bills announcing a meeting in the interests of the Liberal party were not distributed and the attendance was limited to about 25 who were amply repaid for the effort made in coming out by listening to several short speeches bearing on one phase or another of interest to the electors in this campaign. J. D. Larsen was appointed to the chair and officiated in a most efficient manner, keeping excellent order and securing for the speakers a very good hearing. J. R. Watt in a few brief and pointed remarks, showed that the party system was the direct outcome of the constitution under which we live. The majority of voices prevail. Many criticisms have been made of this system but no plan has been evolved and tried which would eliminate party politics. Different interests bring their desires to the attention of the legislators and here again "the majority of voices prevail." In a campaign such as ours the farmers being very much in the majority, it remains with them to exercise control by the vigorous presentation of their needs and demands to the legislators and thus secure the legislation they require. They can obtain their wishes by "the majority of voices" not by changing the system. Mr. Watt, in referring to the Imperial bill extended that the Act merely provided protection and relief by the courts for the farmer oppressed. To go further and would the farmer from mortgaging his exemptions, would be taking from a man his liberty in this matter. The government had provided relief for the farmer that would put it beyond the power of the machine companies to so bound him for payments which were unjust that he would be com-

pelled, as many have been under present conditions, to mortgage his exemptions to satisfy the unfair and unjust claims of the companies. Jos. Workman followed, briefly, repeating the impossibility of avoiding party politics under our present constitution. There is an identity of interests in this country where in the absence of large industries the businessmen, the professional men and the farmers were interdependent and anything that militated against the well being of the farmer reflected itself far upon the others. The opposition can only originate legislation when more nearly on an equality with the party in power. Otherwise and this is more frequently the case, the service of the opposition is to hamper and check any hasty or illconsidered legislation. The interests of the farmers are being considered by the Liberal party now in power. The strength of the farmers makes the government willing to consider those interests. It is no answer to a government to use legislation forced upon them by the majority which in this country is the farmer. If the majority of voters were physicians the government would be forced to listen to their demands. Recognising the supremacy of the farmers, the Liberal government has brought down the legislation asked in so far as the constitution of the land permitted. What could have been fair? The government took its political life in its hands made enemies of the big corporations, made enemies of those who are opposed to progress, even frightened some of its own supporters who are not ready for too radical a forward move, the Liberals took their political lives in their hands with this trust only that the farmers who are in the majority would prove unit.

(Continued on Page 8)

## THE INDEPENDENT CANDIDATE.

### To the Electors of Clareholm Riding

To the Electors of the Clareholm Constituency  
As the nominee of the People's Independent Political Association, I wish to bring the policy of this independent movement before you.  
The platform adopted by the Independent candidate has been published in last week's Clareholm Review and it is therefore not necessary to repeat it here. I will, during the campaign endeavor to say as much of you as possible and explain it more fully.  
The independent movement is a protest against the party spirit among the people. Party politicians who always set party interests before that of the people. The prosperity of the province is dependent on the prosperity of the farmers. Is the individual farmer prosperous? Has he the interests of the individual farmers been advanced by the present government? Is the guaranteeing of R.R. bonds in the interest of the farmer? The charter for a railroad is a valuable franchise in itself without guaranteed bonds. Who pays the bonds? The producer. To give these valuable privileges to the railroad corporations without control of rates or even without stipulation as to the time when these railroads should be completed, is not in the interests of the people.  
The Co-operative Elevator Bill asked for by the farmers for the last four years is of direct benefit to the farmer. It has only been granted on the eve of the election and only because of the strong pressure brought to bear on the government by the farmers' organizations. If the report of the opposition be true, that there is no provision made in the estimates for the ensuing year for the financing of the elevator bill, then this measure is of no benefit to the individual farmer but will come into operation this year.  
The Direct Legislation is not at all what the farmers demanded. The

way it is passed, it prohibits the people from handling their own affairs and leaves that to their servants.  
The Implement Bill, over which so much excitement was created, among the people, proved to be nothing more than the big firms already on their own accord.  
In view of the fact that these measures have been forced from the present government and carried out only at the last moment of the last session, although demanded for the past four years by the farmers, I am confident that the farmers will not be stampeded by phrases but will consider the facts.  
The platform of the People's Independent Political Association, if carried out, is a step to more democratic government and the preservation of the wealth created by the people for the people.  
I appreciate the confidence my fellow-farmers have placed in me. I can assure the electors of the Clareholm constituency that my efforts and endeavors will always be for the betterment of the conditions of the producers. Whatever party is in power, they can rely on me to support any measure that is in the interest of the working people and against special interests and privileges.  
While we are strong we have to keep in mind that the time of election seems to have been chosen to give the farmers an excuse to stay away from the polls on account of the seedling time being at hand.

G. MALCHOW

## CAR OF CLARESHOLM BARLEY SHIPPED TO SCOTLAND

### The Decorations on the Top are Some of our Leading Citizens

(Reprinted from the Calgary Albertan.)

Nick Taitinger of Clareholm, has again demonstrated the pre-eminence of Alberta's crops by shipping a whole carload of barley to the old country, upon special request of a firm of maltsters there. Through the good services of the department of Natural Resources of the C. P. R., Mr. Taitinger was placed in touch with Messrs. Hugh Baird & Sons of Glasgow, Scotland, one of the most famous maltsters in Great Britain. The samples he sent pleased them so that they replied that the barley was just the kind they were looking for, and offered \$10.02 per bushel, which price after carriage is deducted, nets

Mr. Taitinger about 70 cents per bushel. This is fully 25 cents per bushel above the prevailing market price.  
Mr. Taitinger's crop took the Championship at the Dry Farming Congress at Lethbridge last fall, and has been in great demand amongst his neighbors for seedling purposes. It could either have been all sent to Scotland or all sold for seed, but Mr. Taitinger, considering the future of the barley exporting industry in his district equally with the claims of his friends, eventually decided to divide his crop into two parts, half for exporting and half for seedling. As a

result of this policy, next year it is hoped that instead of one carload a whole trainload of barley will find its way from Clareholm to Glasgow.  
The fact that old country maltsters should be so impressed with Alberta barley as to buy it at a distance of over 5000 miles on the strength of a sample, is a unique testimony to the excellence and superiority of the crops which can be raised in sunny Alberta. Nor is this the only instance. The other day 120 tons of Alberta seed oats were purchased by the celebrated Bitter Root Stock Farm of Montana, who expressed their preference for Alberta oats over any other kind.

## Changed Date of Mixed Farming Convention

Many of the farmers who replied to letters sent out by the secretaries of the Mixed-Farming Convention, stating that they would attend, have since written again saying that on account of the conflicting dates of the convention and the elections, they will not be able to come. So it was deemed expedient to change the dates of the Stock Show and Convention, those now agreed on being April 23rd and 24th.  
It is hard to predict what measure of success the change will bring about. Seedling operations which mean dollars and cents to the farmers will under some from coming but the managers are anticipating large crowds. Over 5,000 letters are being sent out advising farmers of the change, and steps will be immediately taken to have Mr. McNeill of the C.P.R., have the special rates changed to meet the dates set.  
Entries for horses and cattle will be receivable to the 21st, thus assuring an increased number in all classes.  
Every effort is being made to assure the farmers that this convention will be of great advantage to them in many ways, and the farmers' co-operation is necessary.  
The sale of cattle will take place on the afternoon of the 24th.

## Dr. Crummy for Principal

Since the death of the late Dr. Sparling, principal of Wesley College, Winnipeg, there has been much speculation as to whom his successor would be. The appointment has just been made of the Rev. Elmer Crummy, pastor of Grace Church, Winnipeg, one of the largest churches and one that has the most influential and wealthy congregation in the city. Dr. Crummy is just completing his fourth year in Grace Methodist Church and has made himself very popular both with his congregations and the citizens of Winnipeg generally. Should he secure he will replace a worthy successor of the late Dr. Sparling. Mr. Crummy is the brother of Mrs. Jas. McKinney of this town, and of Mrs. Hamilton of Bonaville, Alta.

Premier Sifton speaks at High River to-morrow (Friday) evening.

## Plan Your Exhibits Now

Tulsa, Okla., March 22—"Begin now to plan your exhibit."  
This is the word sent out to all farmers by the International Dry Farming Congress, whose great soil product exposition will be held in Tulsa October 22 to November 1.  
"Write at once for the advance program list," says Secretary Burns. "As soon you receive it make up your mind what exhibits you want to show. Then carefully select your seed. Pick out an acre of your best ground, prepare it carefully, plant your selected seed and care for this plot through the spring and summer with the thought always in mind that the crops from this plot of ground are going to win prizes for you. Then, when harvest time comes, select your exhibits by hand, and prepare them carefully for show purposes."  
"If you wait until harvest time to do all these things you are likely to be left behind by some of the more careful farmers, who are even now planning" what prizes they will win when they come to Tulsa this fall.  
"There will be approximately \$25,000 in prizes awarded for the best crops of every sort, and exhibits will be shown from twenty states and almost as many nations. Don't let this discourage you or keep you away. The sweepstakes prize at our last exposition, a \$2500 gas engine, was won by a hitherto unknown farmer for the best bushel of hard wheat. Individual farmers won all the big prizes.

"This year we will have many classes and prizes for boys and girls too, and we expect hundreds of entries in these classes."

## To The Public

We apologise to the public for any unpleasantness that may have occurred in the past as one of our men was not accountable for himself and we can guarantee the public that nothing of the kind will occur again. Our business here is now under strict supervision.  
**Back & Howson**  
FOR SALE—Best seed oats. These oats give a yield of 33 bushels per acre. Prices reasonable, apply Leo Pfeiffer, Clareholm, Alta.

## Take Notice

All yards must be cleaned before April 10th. Alleys must be cleaned and cleared at once.  
By Order  
Committee: Board of Health  
Plantation melodies, jubilee songs, sacred numbers, popular airs, classical selections, you will find the class of music you like on the program of the Jubilee Singers who are here on Saturday night, April 5th, under the auspices of the Clareholm Fire Brigade.

## THE LIBERAL CANDIDATE

### To the Electors: Vote for Good Government and MOFFATT

"I come before you as the Liberal candidate for the electoral district of Clareholm and as an independent supporter of the Sifton government. I have considered the acts of his administration and I believe he has governed wisely and well. The leader of the opposition has presented no constructive policy as an alternative for the aggressive, businesslike progressive policy followed by the Liberal government. The Conservative leader would continue the Sifton policy in court administration, in telephone extension, in railway guarantees, in good roads building, in agricultural development and education, in the construction of public buildings, in consolidated schools, etc. He had absolutely nothing to criticize in the estimates brought down for the continuance of this able and energetic policy. The only criticisms have been trifling and unimportant. There has been no breath of scandal breathed against the Sifton administration. The interests of the people have been the care of the Liberal government.  
The miners in the Pass have their interests safeguarded in the Miners' Act, the laborers in the Workmen's Compensation Bill, the business men, retailers and wholesalers, in the Sales Act, the farmers in the Co-operative Companies Act, the Elevator Bill and the Machinery Act, the entire people, in the Bill providing for Direct Legislation. The development of the province has been advanced by the extension of the telephone system and the encouragement of railway building, the latter to such an extent that has never been duplicated anywhere before. All this is in the interests of the farmers, who are the backbone of the country. As these matters will be treated in detail by others I will content myself with saying, in conclusion, that if I am elected, and I have no confidence in the wisdom and common sense of the electors that their votes and support will be given in favor of the administration that has considered their interests first, last and altogether, I will give my support to the Liberal government but I will not be a slave to any party, but will use my judgment and vote accordingly."

## S. A. Work Reviewed.

Editor Review:

DEAR SIR:—  
I herewith enclose you a few figures of the work of the Salvation Army during the year 1912. These figures only deal with the social side of the work. I thought these might be interesting to those friends in Clareholm who, from time to time, generously subscribed to the work of the army.  
No. Meals supplied at cheap food depots..... 7,001,222  
Cheap Lodgings for Homeless..... 2,038,133  
Applications for unemployment registered at Labor Bureau..... 5,455  
Received into factories..... 12,954  
For whom employment (temporary or permanent) has been found..... 11,827  
Ex criminals received into Homes..... 640  
Ex-criminals assisted, re-housed to friends, sent to situations, etc..... 507  
Applications for lost persons..... 1,787  
Families found..... 130  
Women and Girls received into Rescue Homes..... 2,738  
Women and Girls, sent to situations, etc..... 14,084  
Families visited in slums..... 98,561  
Visits to Public Houses (Saloons)..... 31,250  
Visits to Lodging Houses..... 3,177  
Lodging House Meetings held..... 1,790  
Sick People visited and nursed..... 32,672  
Yours truly,  
E. G. BARNES.

## A Clydesdale for Meadow Creek

Fred Jacobs, of Meadow Creek, made the purchase on Monday of this week, from Ben Philp, son of Clareholm, the well-known breeder and importer of Clydesdales, the fine upstanding three-year old stallion, Ace of Clubs. This horse weighs 1700 lbs. and it is said, the consideration was \$1200. Mr. Jacobs is adding this fine horse to his stud and Ace of Clubs will prove a valuable acquisition to the Meadow Creek horsemen.

### **For Dyspepsia**

If you suffer Stomach Trouble, and you try our remedy, it won't cost you a cent if it fails.

To prove to you that indigestion and dyspepsia can be thoroughly relieved, and that Dr. Cassell's Dyspepsia Tablets will do it, we will furnish the medicine absolutely free if it fails to give you satisfaction.

The remarkable success of Dr. Cassell's Dyspepsia Tablets is due to the high purity of the medicine and to the use of their formula as well as to the pure standard of their manufacture, whereby the well-known properties of Bismuth-Subnitrate and Pepsin have been properly combined with Carminatives and other agents.

Bismuth-Subnitrate and Pepsin are instantly engaged and recognized by the entire medical profession as valuable in the treatment of indigestion and dyspepsia. Their proper combination makes a remedy invaluable for stomach relief.

We are so certain that there is nothing so good for stomach ailments as Dr. Cassell's Dyspepsia Tablets that we urge you to try them at our risk. Three trials, 25 cents each, and \$1.50.

You can buy Dr. Cassell's Dyspepsia Tablets in this community only at our store:

## Be Careful In building that Home.

**POOR LUMBER** gives a house a cheap shabby look which makes it difficult to rent. If it is to live in, you want to be proud to show it to your friends, and the fuel bills are large where low grade lumber is used. We make a specialty of high grade and 'classy' material that you will want to use. We have built up the largest retail business in Western Canada by being very fussy as to grades and selling better stuff than is sold elsewhere at prices as low as those asked for the inferior kinds. If your contractor uses **CROWN LUMBER** it means that he is a man who wants the best of everything and it is the best recommendation he could have!

**CROWN LUMBER Co. Limited.**

## For Loss of Hair

We will pay for what you use if Reall's "93" Hair Tonic does not promote the growth of your hair.

In all our experience with hair tonic we have found that Reall's "93" Hair Tonic gives our customers the best results. We have founded faith in it that we want you to try it at our risk. It does not satisfy you in every particular, but for what you use it to the extent of a 30 day treatment.

If Reall's "93" Hair Tonic does not remove dandruff, relieve scalp irritation, or make the hair grow, and promote a new growth of hair, come back to us and we will refund the money you paid for it, and we will promptly send it back to you. You don't spend anything, promise anything, bring anything back, or in any way obligate yourself. Isn't that fair?

Does it stand to reason that we would not make such a liberal offer if we did not believe that Reall's "93" Hair Tonic will do all we claim it does? It will do all we claim more than any other remedy!

We have everything there is a demand for, and are able to deliver the goods of the things we sell. Customers need not leave their homes to get it—it is that simple. Reall's "93" Hair Tonic will do all we claim more than any other remedy!

Start a treatment of Reall's "93" Hair Tonic today. If you do, we believe you will find it the best hair tonic. Two one bottle, 50c and \$1. You can buy Reall's "93" Hair Tonic in this community only at our store:

Star Line School (joint meeting) Saturday, April 12th, at 8 p. m.

The important issues of this campaign will be discussed by capable speakers

The Opposition Candidates or any one on their behalf are cordially invited to be present.

**GOD SAVE THE KING**

The reports of the loss of life occasioned by the storms and floods in the Ohio Valley were exaggerated but even at that about 1,500 lives have been lost as a result of the cyclones and floods in Nebraska, Indiana, Illinois, Ohio and Virginia.

The fire ladies want to secure money enough to purchase an automatic fire alarm for the town. They are beginning by asking the people of Claresholm to purchase the extraordinary amount put on by the California Jubilee Quartette on Saturday night.

W. C. Bowen, of Keremos, B.C., a former business man here, has sold out his holdings at Keremos and will return to the prairie provinces. Mrs. Bowen and family will remain in Keremos until Mr. Bowen has settled where he will reside.

F. J. Delbridge has severed his connection with the firm of Milnes & Noble and left on Monday night for Medicine Hat. F. J. will likely make Vancouver in the end. Mrs. Delbridge will remain in town till she can dispose of her realty business.

The Ladies' Aid Society of the Presbyterian Church should be gratified with the success of the Tea and Sale of Homemade Cooking which they held last Saturday afternoon. There was a large crowd took advantage of the sale to stock up for Sunday and the tea was well patronized.

The warm weather having arrived and the frost gradually leaving the ground, views of the kitchen garden are appearing to the thrifty. The earlier the clean-up begins the sooner the ground will be ready for cultivation and the sooner the harbours and breeding places of the germs of disease and the ubiquitous house fly will be removed.

Appearing in female garb, imitating the celebrated "Blue Bird", Mr. Payne rendered a solo in a manner that would have done credit to Mrs. Porter Collins, the famous soprano who earned such a reputation in the East with the original Tennesseeans years ago—"Ponoma Progress. At the I.O.O.F. Opera House, Saturday evening next, April 5th.

The Queen's Hotel has an ambitious line of renovating before it. A gang of painters will begin work in a few days, painting both interior and exterior. Miss Host Guy is always up to something in the way of making his house hold the high reputation which it has with the travelling public.

D. E. Gargill and Chris O. Galle had a narrow escape from serious injury on Monday. They were in a buggy and leading three horses. The led horses took fright at a passing auto and crowding against the occupants on the roadway. Fortunately the horses were caught before any further harm had resulted other than the breaking of the pole.

## Newspaper Law

1. The postmaster is required to give notice by letter (returning the paper does not answer the law) when a subscriber does not take his paper out of the office, and state the reason for its not being taken. A neglect to do this makes the postmaster responsible to the publisher for payment.

2. If any person orders his paper discontinued he must pay all arrears, or the publisher may continue to send it until payment is made and collect the whole amount whether the paper is taken from the office or not.

3. Any person who takes a paper out of the postoffice, whether directed to his name or not or whether he has subscribed or not, is responsible for the pay.

4. If a subscriber orders his paper stopped and the publisher continues sending it, the subscriber is bound to pay for it if he takes it from the postoffice. This proceeds upon the grounds that a man must pay for what he receives.

5. The courts have decided that refusing a newspaper or periodical from the postoffice, or removing, leaving them uncollected for, is prima facie evidence of intentional fraud.

## First Gun Fired For Liberals

(Continued from Page 1)

ed and loyal to the government which would stand for their interests. The Liberals are testing the farmers in this election to see whether they have the broad-mindedness, the sense of fairness, the unanimity of purpose to support the government who has dared to take their side.

F. E. Harvey followed briefly. The opposition are charging that the Liberals passed these measures which were urged by the farmers in order to gain the support of the farmers. Is this disgraceful? Is it dishonorable for the party in power to seek the support of the farmers? Other governments have sought and obtained the support of the manufacturers and the big corporations and have ignored the farmers although they are the farmers, have the majority of the votes. Why? Because in the past the farmer was easily diverted from his settled convictions by any clap-trap and the farmers as a solid undivided body of voters was unknown. Wave the old flag, drag a red herring across the path and the farmer vote split itself into factions. The interests voted solidly. In the minority they might be but they voted a majority. The Liberal government at Edmonton believes that the time has come when the farmer will support the government that gives him his demands and trusting to that belief come to the farmers in this constituency and ask support. How can that support be given? By endorsing the government candidate. To vote for Mr. Moffatt is to say to the Liberal government at Edmonton, "Go on with the good work. We are behind you." To defeat him is tantamount to saying, "As it was in the beginning, is now and ever shall be, we farmers can be swayed by every ill-considered illogical movement that presents itself to us. We are always ready to chase chimera and tilt against windmills at the beck of any enthusiast." You farmers can make the Liberal party yours. You can group it to you and your interests with hooks of steel. Support Mr. Moffatt at the polls. Turn down the fantasies that would have you hard-headed, sensible farmers go forth on a crusade to tear down constitutions, upset the social fabric, without a reasonable substitute for either. The German aristocrats hold sway although numerically in a hopeless minority because the opposition are split into followers of every possible economic cult and are swayed to and fro by imaginary and illusory social ideals and they have no time to mull on a reasonable basis and hold their own. The history of the Liberal party in Canada proves it to have been the people's party. reform party, and while there may have been times when the party strayed from the path blazed out for it by its leaders of the earlier days, in the case of the Liberal party at Edmonton Liberalism is again for the people, by the people.

## Notice to Creditors.

In the matter of the estate of Wiley Pelham St. John, late of Heron Lake, in the State of Minnesota, one of the United States of America, Deceased.

**BEAUTIFY THE SCHOOL  
GROUNDS.**

Of our school building we are justly proud. On the staff of capable teachers and noble work that they are in a position to do and are doing, we congratulate ourselves. Of the bright and clever young lads and girls to whom we look to carry on the work we are now doing we are called upon to cease our labors, we speak with commendable satisfaction. But, to the school grounds and the unconscious lessons it is teaching, we cannot point without the feeling of shame. Treeless, possessing nothing to appeal to the aesthetic, conveying no appeal of beauty to the eye, clean, perhaps, spacious, clean-lined, but treeless. The Committee on Conservation is doing a noble work in preserving and teaching the value of our

tree-covered slopes. That great corporation, the C.P.R., with commendable foresight, is planting trees for planting within the reach of young people. The business men are endeavoring to enhance the comfort and appearance of their homes by planting shrubs and avenues of trees along their lines and driveways. The school grounds, throughout the district are without a tree, without a flower garden, without exterior adornment, or anything to appeal to the sense of the beautiful in the hearts of the children. And our own public school, which should set an example to other schools in the district, which it is a disgrace to be guilty in the respect, is empty. Money is not spent implicitly that fosters the sense and appreciation of the beautiful for an appreciation of the beautiful in natural surroundings is but a step to the appreciation and emulation of the beautiful in character. This is not the work of a day or year but a step towards the ideal, repeated year after year, brings that ideal appreciably near. The expense involved in the planting of forty or fifty trees would be very small and it would be the beginning of a good work. Whose name among our trustees will go down to posterity as the name of

the one who led to the final step towards a particularly in vastness, being taken in the respect that respect, while growing, fosters and result in emulation.

**Wider Use of School Plant**

According to the last Report of the Bureau of Education for the United States, there is a need for a wider use of the school plant.

The average American school building, as open not more than a hour a day, by five days a week, and thirty-six weeks in a year, that is, 180 hours. If Sunday is excluded, there are in all approximately 3400 hours in a year during which the school building might be used. This, by the way, is a waste of about 1920 hours, or 44 per cent. With the possible exception of the Church no other institution uses its plant so little. Commonly school buildings in general are used for school houses, sports, reading the fact that more money is invested in the latter. But this is not the only consideration. There is a wide and growing need, which the school building may serve. Many places of amusement frequented by young people in large cities and towns are unwholesome in their influences, and the school house should provide the needed healthier social and moral environment.

In recent years the movement for the wider use of the school plant has

been making rapid strides, particularly in vastness, being taken in the respect that respect, while growing, fosters and result in emulation.

**Edmonton Spring Show and Livestock Sale.**

The Edmonton Spring Show and Sale of live-stock, to be held on the Exhibition grounds under auspices of the Edmonton Exhibition Association on April 24th, promises to be the success. This is of course, by contributing to the Alberta Provincial Poultry and Livestock Societies under whose management, in conjunction with the Exhibition Association, the Show and Sale are being conducted. A large number of entries have already been received, including Holsteins, Ayrshires, best and dairy Shorthorns. The show of horses will also be a magnificent feature of the Show. Edmonton has already made a name second to none in Western Canada for shows of live-stock and this year promises to be better than ever.

The farmers of the Province are fortunate in being able to secure pure-bred stock in this way. For many years to come, the demand for good stock will far exceed the local supply, and many far-sighted farmers have already signified their intention of taking advantage of this opportunity to secure foundation stock from which

to build up their herds.

Edmonton, by its all-out effort, might far more than any other city in the West, be the center of the livestock trade in the West.

Forty years in use, 20 years the standard, prescribed and recommended by physicians. For Woman's Ailments, Dr. Martell's Pills, at your druggist.

**Direct Legislation.**

Dr. Stanley, the Conservative candidate for High River, recently expressed the government for the direct legislation bill, which he seems to believe is somewhat of a novelty. He insists that it is not direct legislation at all, because it does not provide for the recall, because it does not enable an initiative or referendum on money bills, because it cannot come into force until Premier Sifton says so, and because no referendum can be taken until Premier Sifton says so. Most of which is not true.

The direct legislation bill does not provide for the recall because the farmers of Alberta, who requested the bill, did not ask for it, and they did not ask for it, probably, because of the general belief that in provincial matters it would not fit in with our British system of government.

It does not include money bills because, according to our constitution,

the power to raise and expend money better reside than in any other part of America, it is provided that the state legislature by majority vote may place an emergency clause on a bill and subject the referendum. Properly placed, it is in the union with direct legislation, has a similar qualification. It is the same in Saskatchewan.

In the state of Oregon, where direct legislation has been enacted, the same better results than in any other part of America, it is provided that the state legislature by majority vote may place an emergency clause on a bill and subject the referendum. Properly placed, it is in the union with direct legislation, has a similar qualification. It is the same in Saskatchewan.

The fact of the matter is that the Conservatives are not sincere in their support of direct legislation and really do not know what it means. In Ottawa they are attempting to turn the constitution upside down and inside out in order to prevent the people from expressing an opinion upon the vital question. In Manitoba, Premier Roblin describes the proposition as anarchistic, revolutionary, un-British and American.

But the Liberals have placed direct legislation on the statute books of the province—Edw.

# Platform of the People's Independent Political Association of the Claresholm Riding

## We Stand for and Advocate:--

1. The acquisition and conservation of all of our natural resources for the benefit of all the people.
2. Cheaper money for farmers preferably by the establishment of co-operative credit associations, the government to provide funds to install this system, which funds should be gradually repaid to the government.
3. Cheap and efficient machinery for the establishing of co-operative societies.
4. The extension of the franchise to women in provincial elections on equal terms with men.
5. Legislation to better safeguard the people's rights, especially with regard to the charters granted to gas companies, railways, etc.
6. Provincial prohibition of the liquor traffic.
7. The adoption of the Platform known as "The Ottawa Platform" which was presented in 1910 by a delegation of the farmers of Canada, to Sir Wilfrid Laurier in which Reciprocity Government Ownership of Terminal Elevators, Direct Legislation, etc., was asked by a delegation over 800 strong representing the farmers of the Dominion.
8. That a true physical valuation be taken of all railways operating in Canada and upon this value to fix the rate, the information to be available to the people.

If you can give your support to this platform we ask your

### Horse Show at Calgary--Next Week.

Elaborate preparations are well under way for the Provincial Horse Show and stock sales which are to be held at Calgary, April 28 to 30th. The entry in the horse show is the largest on record, totalling over 1225, which is over two hundred more than ever before.

The Clydesdales show some wonderfully large entries, there being 25 five year old stallions, 20 four year olds, 19 three year olds, while there are 21 Clyde mares in competition in the four year old class. This heavy entry applies to practically all the breeding classes, with splendid entries in the Percherons, Shires and Belgians. Saddle and harness horses show some wonderfully large lots, some of them having as many as 20 entries.

The spacious horse show building is being decorated with an elaborate new previously attempted, thousands of yards of banding, hundreds of flags and pot plants without number being utilized. The horse show opens April 28th, the economy being professed by Lieut. Governor Balfour who will be accompanied by a large number of officials.

There has never been such an interesting programme of meetings arranged in connection with the horse show as that listed for this year. The horse show itself will be held continuously for the entire five days. Monday there will be a number of annual meetings held including:

Alberta Cattle Breeders' Association, 2:30 p.m. Alberta Suffolk Punch Horse Breeders' Association, 3 p.m. French Coach Horse Breeders' Association, 4 p.m. Alberta Horse Breeders' Association, 5 p.m. Thursday the polo meeting will be held, and Friday there will be a joint meeting of four delegates, from each of the livestock associations of the four western provinces.

Thursday the judging of the entries in the purchased cattle show will be held, and the sale of bulls starts the following morning. Included in the sale are some fine Shorthorns, Herefords, Aberdeens Angus and Galloways.

The first annual sale of horses held in conjunction with the show will be held Thursday. There are entries of practically all breeds or horses including Clydesdales, Suffolk Punch, Percherons, Thoroughbreds and Standardbred animals.

Single fare tickets for the round trip will be issued by the C.P.R. 25 to 40 cents returning April 14th. Parties desiring any of the motoring, sales or shows may be obtained from E. L. Richardson, secretary and managing director, Calgary, Alta.

### Want Dominion Secretary of Education

Alberta Teachers' association closes its two days' sessions on March 27 by electing upon the platform of the convention city for 1914 and the election of these officers:

Hon. President, Hon. A. R. Boyle, Minister of Education; President, A. M. Scott, Calgary; First vice president, W. G. Carpenter, Edmonton; Second vice president, W. A. Hamilton, Lethbridge; Secretary, E. H. Wilson, president, Lethbridge; Secretary, Alexander Gibson, Red Deer; Senior public school, President, H. C. Edmondson, secretary, Lethbridge; Junior public school, 2nd to be elected. All other officers will be appointed by these bodies.

The financial report showed a balance of \$68,832 this year, the past year's was 775 as against 372 last year.

The most important resolution affecting education is one calling upon the federal government for the appointment of a Dominion secretary of education with whom the various provincial associations would co-operate. This resolution met with unanimous approval and will be forwarded to the government.

Another resolution, which will be sent to the different associations, on in respect to the summer vacations of the teachers. It is worded to the effect that the summer rates be established for the months of July and August to enable teachers in western provinces to go to their former homes for their annual vacation.

The convention also considered the advisability of acting in the matter of an interchange of provincial delegates. It was decided that the executive committee deal with the matter. The committee will appoint representatives and have the meeting in all readiness to take effect next year.

### Policy of Development.

The aim of the Liberal government is, and has always been, the development of Alberta. It is a large, sparsely populated province. One of its aims, its mountains and its streams, it is somewhat expensive to develop and has been very difficult to organize. It is a very fertile country, with rich soil and delightful climate. But the climate would be of little value, and the soil a small asset, if the province was not organized, and its resources developed. One of the earliest moves of the government was to encourage railway building. At the time of the organization of the province about 1,000 miles of railway served the entire country. Through the policy of the government, in eight years the railway layout has been tripled. This was directly or indirectly due to the policy of the administration. That means bringing the profitable area of the province. Without this railway policy, conditions would not have been very far in advance of conditions in 1905, when Calgary had a population of less than 10,000. Then railway building had

been at a standstill for many years.

The policy of the government is to continue this railway expansion.

Premier Sifton has faith in the future of Alberta and has said that he will not be satisfied with the development of the province until every section is well supplied with railways.

Next to the development of the railways came the development of the internal transportation. The government has built the very best steel bridges to accommodate the traffic. It has inaugurated a very successful policy of trunk highways. It has linked up the far-away districts with the railways.

In line with the policy of development came the extension of the telephone system. At present, though Alberta is the youngest province in Canada, it has the most up-to-date and successful telephone service in America. Despite the area and far reaches of a sparsely populated province, the telephone has been extended to the remote corners of the province. The charges are moderate, and the system is more than paying its way.

The policy of development is the keynote of the Sifton administration. It has provided schools for the distant settlers. It has inaugurated a system of agricultural instruction which has been declared by the Dominion authorities to be the best in Canada. It has lent a helping hand to the live stock breeders of every kind. It has assisted the farmer in every possible manner.

It is going farther. The farmer of Alberta has been handicapped by a narrow market and has been in the hands of the elevator monopoly. The government has undertaken to relieve this difficulty. It is all along the policy of successful development.

The government has assisted the aboriginal man, the business man and the farmer. It has shown its confidence in the people by passing direct legislation of a very liberal and broad nature, permitting the people to initiate legislation or pass judgment upon legislation already sanctioned by the legislators.

A policy of development has been the aim, the performance and the policy of the government. An examination of the records shows how successful it has carried out that aim. The opposition has no policy. It has inaugurated nothing, it has inspired nothing, it has done nothing, it promises nothing. It is a dead weight. Whatever influence it has had, has been against this forward movement of the government. The people are called upon to decide between the two parties.—The Alliance.

WHEREAS by agreement in writing, dated the 31st day of March, A. D. 1913, made, entered into and duly executed between Nels Petersen of Claresholm, Farmer, and his wife, Mary Petersen of Claresholm, afore-said, the above parties have agreed to separate from each other in the future.

NOW, THEREFORE, the said Nels Petersen, that from and after the 31st day of March, A. D. 1913, he, the said Nels Petersen will not be responsible for any debts, whatsoever, which his wife, Mary Petersen, may contract.

Dated at Claresholm, this 31st day of March, A. D. 1913.

G-7 NELS PETERSEN.

### An Act Respecting Agreements for the Sale of Farm Machinery

His Majesty, he and with the advice and consent of the Legislative Assembly of the Province of Alberta, enacts as follows:

1. This Act may be cited as "The Farm Machinery Act."

2. "Farm machinery" in this Act shall mean any and every implement and machine purchased by a farmer for use upon any farm, and without in any way restricting the meaning shall include all engines, threshing machines, steam plows, binders and mowers.

3. No covenant, promise, stipulation or condition, in any agreement, whether oral or in writing, to write to be binding upon the purchaser of farm machinery, provided a court or judge shall decide or declare that such stipulation, promise, stipulation or condition is, under all the facts and circumstances of the case, unreasonable.

4. Notwithstanding anything con-

# FARMERS!

When you asked the Sifton government for legislation bearing on Direct Legislation, Farmers' Elevators, a fairer Machinery Contract, Co-operative Societies, etc., did the government meet your wishes?

**YES**

Has any other government done as much for you?

**NO**

Did the Opposition add anything to the Government measures to improve them?

**NO**

Was there any Constructive legislation in your interests even proposed by the Conservatives?

**NO**

Do you think the Liberal administration should be punished for doing as you requested and winning the everlasting hatred of the Big Corporations?

**NO**

Would not a man be an ingrate who would for a spurious "independence" imperil the existence of the only government and party who have attempted anything tangible and concrete in the way of legislation for the farmer?

**YES**

Is it true that a vote for the independent candidate is a vote against the Sifton administration?

**YES**

Can you conscientiously cast a vote against Moffatt and the Liberal policy?

**NO! NO!**

Before filling these boxes with soil it may be mentioned that it is a good plan to put a layer of small stones, or pieces of broken flower pots or tile, about 4 of an inch deep in the bottom of the box to ensure plenty of drainage. The sack of the hotbed should be opened a little every day, so that the young plants receive a plentiful supply of fresh air, and should be closed at nights with a good thickness of burlap or matting thrown over the glass if the frosts have not yet gone.

A cold frame can be made in the same way as the hot-bed only no manure is placed in this frame. It is handy, as we said before, to harden the plants off before planting them in the garden. —Farm and Ranch Review.

### Luther Burbank on Alcohol and Tobacco

We were intensely interested in an article from the pen of Luther Burbank, which appeared a little while ago in "School Times" on alcohol and tobacco. It will be remembered that the great breeder is not a temperance worker, but a scientist, and business man, hence the value of his opinion to the world at large. This is what he says:

"I answered your question by saying that I never use tobacco and alcohol in any form, and many coffee and tea, you might say that was a personal preference and proved nothing. But I can prove to you most conclusively that even the mild use of stimulants is incompatible with work requiring accurate attention and definite concentration."

"To assist in my work of building —work that is as accurate and exacting as watchmaking—I have a force of twenty men. I have to discharge men from this force if incompetent, or if they are unable to do the rough work of farming, call building and other delicate work, 'puttering' and have to give it up, owing to inability to concentrate their nerve force."

"Even men who smoke one cigar a day cannot be trusted with some of the most delicate work."

"Young boys are even more damaging than cigars, and their use are in their knives who give promise of being happy in the future. There is no question whether cigarettes alone were the cause of the bad habit. No boy living would commence the use of cigarettes if he knew what a useless, useless, useless thing they would make him."

During the first three or four days the temperature will probably rise to 100 F. or over, and it is best to wait till it drops to around 86 or a little less, then you can start the plants in the soil in the hotbed, or if you prefer it, in boxes two feet by eight inches, by three to four inches deep, with sparsely bottom for drainage. These boxes are to be kept in a more about, and the young plants can be more readily and more easily removed to a cold frame, if you prefer to have one, to harden them off.

It is interesting to note that a possibly being up a favorable argument for the use of cigarettes by boys. Several my young acquaintances are in their knives who give promise of being happy in the future. There is no question whether cigarettes alone were the cause of the bad habit. No boy living would commence the use of cigarettes if he knew what a useless, useless, useless thing they would make him."
